Product Specification

Security certification information = Non-safety parts, no safety certification involved.

Environmental Requirements = Raw materials and packaging materials used for parts comply with RoHS requirements.

Packaging specifications

- Inner packing material: sky and earth box
- Bag size: 185mm*65*25mm
- Orientation of material: Horizontal
- Quantity of inner package: 1PCS
- Outer packing material: corrugated paper, K=K
- Outer box size: 565mm X 410mm X 160mm
- Outer packing quantity: 80PCS

Transportation and Storage Environmental Requirements

Transportation requirements

- Good packaging should be used during transportation to ensure that the product will not be damaged by environmental atmosphere or undue stress.
- Avoid violent impact or shock during transportation. It should be waterproof and moisture-proof during transportation.
- The temperature and humidity of the transportation environment should meet the requirements of storage conditions.
- Transportation of static sensitive devices should be placed in anti-static packaging, if necessary, the use of ion fans to eliminate static electricity generated during transportation.

Storage requirements

- Must be stored in a clean, ventilated, non-corrosive gas warehouse.
- Items with anti-static requirements should be stored in an anti-static environment.
- The device should be stored for a limited period of one year at a temperature of -10~40°C and a relative humidity of not more than 75%.

Technical specifications, performance parameter indicators and test methods

Basic functions

TX (transmitter side)			
Keystrokes	Functions		note
Strokes	Replaces finger tapping and writing functions		
Annotation keys	Short press	Open Annotation	
	Long press	Exit Annotation	
Page Up Key	Short press	Page up	
	Long press	Increase volume	
Page Down Key	Short press	Page down	
	Long press	Volume down	
Whiteboard key	Short press	Enter Whiteboard	
	Long press	Exit Whiteboard	
Indicator Light			
Indicator light	Status		
Red light	Red light always on during charging; low battery blinking		
Green light	Lights up when charging is complete		
Blue light	Working		

Product parameters

Item	Product Parameter
Dimension	14*166mm
Weight	26g
Power supply mode	Rechargeable lithium battery
Working Current	≤30mA
Input Voltage	2.75-4.2V
Working time	8-12 hours
Battery capacity	320mAh
Charging box interface	TYPE-C
Charging time	1-2 hours
Charging current	≤300mA
Effective distance	Barrier-free distance not less than 20 meters
Working Temperature	5°C~35°C

CYNKCO
